SUBJECT: Managing the INF Treaty Markup

During the Senate final consideration of the INF Treaty, the US INF Negotiator, Ambassador Maynard Glitman, will serve as the Administration's primary representative on INF Treaty matters in dealings with the Congress. He will be routinely available to answer Congressional questions and concerns, drawing upon established Administration positions and policy.

Should issues arise that go beyond established Administration policy, Ambassador Glitman will seek advice and guidance. The National Security Council staff will use existing interagency mechanisms to promptly process and coordinate such requests and provide necessary additional guidance to Ambassador Glitman.

To expedite actions, agencies are requested to identify an individual as their primary point of contact for this activity. Please provide the name of this individual and phone numbers at which he or she can be reached by Friday, March 11.

Paul Schott Stevens
Executive Secretary
